## **Important Insurance Related Information**

To our Patients:

**A refraction is the part of the exam where your glasses power is determined. Medicare and many other insurance companies do not cover refractions. You will be responsible for this \$25.00 fee.**

Refractions are done at the time of all annual exams and when necessary to improve your eyesight.

If you are participating in an HMO plan, you must have a referral number from your primary care doctor for all visits. **It is your responsibility** to contact your primary care doctor to obtain this prior authorization. You will also be responsible at each doctor's visit for the co-pay, which is listed on your insurance card.

Thank you for your cooperation. If you have any questions or concerns, please let us know.

Please sign below stating that you have read and understand the above information.
